

# Summer-time Safety for Kids

**Injuries are the #1 threat to your child's health. Use these safety tips to keep your child safe.**

## **Tips to prevent Window Falls**

- Watch children closely.
- Keep all closed windows locked.
- Move all furniture including beds away from windows.
- Open windows from the top, not the bottom, if you can.
- Screens do not protect children from falling out of windows, they just let the air in and keep bugs out.
- Put window guards in your windows. Only the quick-release type of window guard is permitted.
- You can buy quick-release type window guards in most hardware stores.
